Note on Segment Information

Primary Segments

The Mindteck Group's operations predominantly relate to providing software services to external customers and providing IT-enabled services to consolidated subsidiaries within the Group. Accordingly, revenues represented along software services and IT enabled services comprise the primary segmental information. Certain expenses are specifically not allocable to individual segments as the underlying services are used interchangeably, and accordingly expenses are separately disclosed as unallocable.

Segmental Capital Employed

Segregation of certain assets, liabilities, depreciation and other non-cash expenses into various primary segments has not been carried out as the assets are used interchangeably between segments. Accordingly, assets other than sundry debtors are disclosed as unallocable and no disclosure relating to segmental liability has been made.

As IT-enabled services are rendered entirely to group companies which are consolidated, the disclosure of a separate IT-enabled service segment as a separate primary segment is not applicable for the consolidated financial results.
