8 Segmental reporting (Consolidated)

The Mindteck Group's operations predominantly relate to providing software services to external customers and providing IT-enabled services to consolidated subsidiaries within the Group. The Group considers business segment as the primary segment and geographical segment based on the location of customers as the secondary segment.

Since IT-enabled services are rendered to subsidiaries which are consolidated, the disclosure of a separate IT-enabled services segment as a separate primary segment is not applicable. The Group is therefore considered to constitute a single primary business segment and accordingly primary segment disclosures have not been presented.

The accounting principles consistently used in the preparation of the consolidated financial statements are also consistently applied to record income and expenditure in the individual segments.

To,
The Board of Directors of Mindteck (India) Limited

We have audited the annual consolidated financial results ('Statement') of Mindteck (India) Limited ('the Company') and its subsidiaries including step subsidiaries (collectively referred to as 'the Group') for the year ended 31 March 2016, attached herewith, being submitted by the Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Attention is drawn to the fact that the figures for the quarter ended 31 March 2016 and 31 March 2015 as reported in the Statement are the balancing figures between audited figures in respect of the full financial year and the published year to date figures up to the end of the third quarter of the relevant financial year. Also the figures up to the end of the third quarter have only been reviewed and not been subjected to audit.

This Statement has been prepared on the basis of the annual consolidated financial statements and the reviewed quarterly financial results up to the end of the third quarter, which are the responsibility of the Company's management and have been approved by the Board of Directors in the meeting held on 20 May 2016. Our responsibility is to express an opinion on this Statement based on our audit of consolidated financial statements, which have been prepared in accordance with the recognition and measurement principles laid down in Accounting Standards specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and other accounting principles generally accepted in India and in compliance with the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

We conducted our audit in accordance with the auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial results are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts disclosed as financial results. An audit also includes assessing the accounting principles used and significant estimates made by the management. We believe that our audit provides a reasonable basis for our opinion.

We did not audit the financial statements of three subsidiaries included in the Statement, whose financial statements reflect total assets of Rs. 41,913,462 as at 31 March 2016 as well as the total revenue of Rs. 20,030,724 and Rs. 76,325,289 for the quarter and year ended 31 March 2016 respectively. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us, and our opinion on the consolidated financial results, to the extent they have been derived from such financial statements is based solely on the report of such other auditors.

Oil rises as Nigeria turmoil adds to global supply disruptions

REUTERS
Singapore, 20 May

Oil prices rose on Friday as turmoil in Nigeria, shale bankruptcies in the United States and a crisis in Venezuela all contributed to tightening supplies. However, brimming inventories across the world were preventing supply shortfalls as well as sharper price spikes, traders said. International Brent crude futures were trading at \$49.02 per barrel at 0653 GMT, up 21 cents or 0.43 percent from their last settlement. US West Texas Intermediate crude futures were up 29 cents, or 0.6 per cent, at \$48.45 a barrel. ANZ bank said that unexpected supply disruptions

Nigeria's oil production showed further signs of strain on Thursday as intruders blocked access to Exxon Mobil's terminal exporting Qua Iboe, country's largest crude stream PHOTO: REUTERS

across the world, excluding output falls in the United States, amounted to around 2.5 million barrels of daily production, virtually erasing a production overhang that had pulled down prices by over 70 per cent between 2014 and early 2016.

“The supply disruptions inflicting the oil market continue to ratchet up... As these issues linger, we expect an increasing supply risk premium will price into the market,” the bank said. Nigeria's oil production showed further signs of strain on Thursday as intruders blocked access to Exxon Mobil's terminal exporting Qua Iboe, the country's largest crude stream. “Loading schedules have been interrupted at three of the five primary export terminals in Nigeria due to sabotage, with a fourth (Qua Iboe) interrupted by an operational incident; we estimate over 450,000 bpd is affected,” US investment bank Jefferies said. This means that the militant activity has cut Nigeria's oil output to a more than 22-year low of under 1.4 million bpd. Libyan output has also been hit by internal conflict. In North America, US crude oil output has fallen 8.79 million barrels per day (bpd), down from a peak of more than 9.6 million bpd last year, as a wave of bankruptcies hits producers. In Canada, production has also been cut as wildfires forced closures of around 1 million barrels in daily production, although output is gradually returning. In South America, output from Organization of the Petroleum Exporting Countries-member (Opec) Venezuela is also stalling as its state-owned oil company PDVSA struggles with a cash squeeze amid a deep political and economic crisis.

No new ideas, G7 to agree on ‘go-your-own-way’

REUTERS
Sendai (Japan), 20 May

A rift on fiscal policy and currencies is likely to set the stage for G7 advanced economies to agree on a “go-your-own-way” response to address risks hindering global economic growth at their finance leaders' gathering on Friday. As years of aggressive money printing stretch the limits of monetary policy, the G7 policy response to anemic inflation and subdued growth has become increasingly splintered. Finance leaders gathering in Sendai, northeast Japan, sought advice from prominent academics, including Nobel Prize-winning economist Robert Shiller, on ways to boost growth in an informal symposium ahead of an official G7 meeting on Friday. Participants of the symposium agreed that instead of relying on short-term fiscal

stimulus or monetary policy, structural reforms combined with appropriate investment are solutions to achieving sustainable growth, a G7 source said. If so, that would dash Japan's hopes to garner an agreement on the need for coordinated fiscal action to spur global demand. Germany showed no signs of responding to calls from Japan and the United States to boost fiscal stimulus, instead warning of the dangers of excessive monetary loosening. “There is high nervousness in financial markets” fostered by huge government debt and excess liquidity around the globe, German Finance Minister Wolfgang Schaueble said on Thursday. But G7 officials have signaled that they would not object if Japan were to call for stronger action using monetary, fiscal tools and structural reforms — catered to each country's individual needs. That means the G7 finance leaders, while fretting about risks to outlook, may be unable to agree on concrete steps to bolster stagnant global growth. “I expect there to be a frank exchange of views on how to achieve price stability and growth using monetary, fiscal and structural policies reflecting each country's needs,” Bank of Japan Governor Haruhiko Kuroda told reporters on Thursday. The risk of a British vote to exit the European Union in a June referendum, or Brexit, will be high on the agenda at Friday's G7 session on the global economy. “A Brexit could, in the short-term, lead to turbulence in financial markets,” the G7 source said. In second-day talks on Saturday, the G7 finance leaders will discuss, among other topics, the need to boost cyber-security.

Egypt finds debris from plane crash at sea

REUTERS
Cairo, 20 May

The Egyptian navy said on Friday it had found the personal belongings of passengers and other debris floating in the Mediterranean, confirmation that an EgyptAir jet had plunged into the sea with 66 people on board. The military said it had found the debris about 290 km

(180 miles) north of the port city of Alexandria and was searching for the plane's black box flight recorders. Egypt's President Abdel Fattah al-Sisi offered condolences for those on board, amounting to Cairo's official acknowledgement of their deaths. The defense minister of Greece, which has also been scouring the Mediterranean, said Egyptian authorities had found a body part, luggage and a seat in the sea just south of where the signal from the plane was lost. Although suspicion pointed to Islamist militants who blew up another airliner over Egypt just seven months ago, no group had claimed responsibility more than 24 hours after the disappearance of flight MS804, an Airbus A320 flying from Paris to Cairo.
