- 7 The Mindteck Group's operations predominantly relate to providing software services to external customers and providing IT-enabled services to subsidiaries within the Group.

Since IT-enabled services are rendered to subsidiaries which are consolidated, the disclosure of a separate IT-enabled services segment as a separate primary segment is not applicable. The Group is therefore considered to constitute a single primary business segment and accordingly primary segment disclosures have not been presented.

Based on the "management approach" as defined in Ind AS 108 - Operating Segments, the Chief Operating Decision Maker also evaluates the Group performance and allocates resources based on an analysis of various performance indicators by geographical areas. Accordingly, information has been presented in respect of such geographical segments.

The accounting principles consistently used in the preparation of the consolidated financial statements are also consistently applied to record income and expenditure in the individual segments.
