Board of directors' report for the year ended 31 March 2023

The Board of Directors presents its report and financial statements of Mindteck Middle East Limited WLL (the 'Company') for the year ended 31 March 2023.

Board of directors

The members of the Board of Directors are as follows:

Paradeep Kizhakkethil
Shankattu Shivarama Adiga

Designation

Director
Director

Principal activities

The principle activities of the Company are to provide:

- (i) Computer programming activities; and
- (ii) Computer consultancy and computer facilities management activities.

Review of current position, future developments and significant risks

The Company's development to date, financial performance and position as presented in the financial statements are considered satisfactory.

The most significant risks faced by the Company and steps taken to manage these risks are described in note 23 of the financial statements.

Financial performance

The Company's financial performances for the year is set out on page 8.

Acknowledgement

We express our sincere thanks and appreciation to all of you for your sustained cooperation and support during the year. We would also like to express our gratitude to the management and staff for their continued hard work, dedication and loyalty during the year.

Signed on behalf of the board of directors:

A handwritten signature in blue ink, appearing to read "K. Paradeep", written over a horizontal line.

To the shareholder of Mindteck Middle East Limited WLL

Opinion

We have audited the financial statements of Mindteck Middle East Limited WLL (the "Company"), which comprise the statement of financial position as at 31 March 2023, the statement of profit or loss and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2023, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

Management is responsible for the other information. The other information comprises the information included in the board of directors' report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

To the shareholder of Mindteck Middle East Limited WLL

(Continued from previous page)

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent auditor's report

To the shareholder of Mindteck Middle East Limited WLL

Report on other legal and regulatory requirements

As required by the Bahrain Commercial Companies Law, we report that:

- a) the Company has maintained proper accounting records and the financial statements are in agreement therewith;
- b) the financial information included in the board of directors' report is consistent with the books of account of the Company; and
- c) nothing has come to our attention which causes us to believe that the Company has breached any of the applicable provisions of the Bahrain Commercial Companies Law, or of its deed of association, which would materially affect its activities, or its financial position as at 31 March 2023.

1. Legal status and principal activities

Mindteck Middle East Limited WLL, (the "Company"), is a limited liability company registered with the Ministry of Industry and Commerce in the Kingdom of Bahrain under commercial registration number 49063-1, dated 27 July 2002.

The principal activities of the company are computer programming and consultancy, computer facilities management.

The company is wholly owned subsidiary of Mindteck India Limited ("the parent company"), domiciled in India. The parent company is owned by Trans Company Limited which is the ultimate parent company.

2. Basis of preparation

2.1. Statement of compliance

These financial statements have been prepared on a going concern basis and in accordance with International Financial Reporting Standards (IFRS), being standards and interpretations issued by the International Accounting Standards Board (IASB), in force at 31 March 2023, and the applicable provisions of the Bahrain Commercial Companies Law Decree No (21) of 2001 and its amendments.

The financial statements comprise a statement of financial position, statement of profit or loss and other comprehensive income, a statement of changes in equity, a statement of cash flows, and notes. Income and expenses, excluding the components of other comprehensive income, are recognised in the profit or loss. Other comprehensive income is recognised in the statement of comprehensive income and comprises items of income and expenses (including reclassification adjustments) that are not recognised in the profit or loss, as required or permitted by IFRS. Reclassification adjustments are amounts reclassified to profit or loss in the current period that were recognised in other comprehensive income in the current or previous periods. Transactions with the owner of the Company in their capacity as owner are recognised in the statement of changes in equity.

The Company presents the statement of profit or loss and other comprehensive income using the classification by function of expenses. The statement of financial position format is based on a current and non-current distinction.

2.2. Basis of measurement

These financial statements have been prepared under the historical cost convention, unless mentioned otherwise in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

The Company is required to classify all assets and liabilities, measured at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being: Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date; Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and Level 3: Unobservable inputs for the asset or liability. Considerable judgement is required to determine what is significant to fair value and therefore which category the asset or liability is placed in can be subjective.

The fair value of assets and liabilities classified as level 3 is determined by the use of valuation models. These include discounted cash flow analysis or the use of observable inputs that require significant adjustments based on unobservable inputs.

The accounting records are maintained in Bahraini Dinar (BD) which is the functional and reporting currencies for these financial statements. Amounts are rounded to the nearest BD, unless otherwise stated.

2.3. New and amended accounting standards and interpretations

The Company has adopted all of the new or amended Accounting Standards and Interpretations issued by the International Accounting Standards Board ('IASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted. The company has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

3. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.1. Plant and equipment

On initial recognition, items of plant and equipment are recognised at cost, which includes the purchase price as well as any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

After initial recognition, items of plant and equipment are carried at cost less any accumulated depreciation and impairment losses. Depreciation is calculated on a straight line basis so as to write off the cost of an asset, less its estimated residual value, over its useful economic life at the following annual rates:

Computer and office equipments	15% – 33%
Motor vehicles	15%

Depreciation is charged from the month of acquisition while no depreciation is charged in the month of disposal. Useful lives, residual values and depreciation methods are reviewed, and adjusted if appropriate, at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the statement of profit or loss.

3.2. Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Company expects to obtain ownership of the leased asset at the end of the lease term, the right-of-use asset is included within property, plant, and equipment, and is depreciated over its estimated useful life. Right-of-use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The Company has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

3.3. Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days. The Company has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue. Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

3.4. Contract assets

Contract assets are recognised when the Company has transferred services to the customer but where the Company is yet to establish an unconditional right to consideration. Contract assets are treated as financial assets for impairment purposes.

3.5. Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at bank. For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined.

3.6. Equity

Equity instruments are contracts that give a residual interest in the net assets of the Company. Ordinary shares are classified as equity. Equity instruments are recognised at the amount of proceeds received net of costs directly attributable to the transaction.

3.7. Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

3.8. Employee benefits and entitlements

3.8.1. Employee terminal benefits

The Company contributes to the pension scheme for Bahraini nationals administered by the Social Insurance Organisation in the Kingdom of Bahrain. This is a defined contribution pension plan and Company's contributions are charged to the statement of profit or loss in the period to which they relate. In respect of this plan, The Company has a legal and constructive obligation to pay the contributions as they fall due and no obligations exist to pay the future benefits.

The expatriate employees of the Company are paid leaving indemnity in accordance with the provisions of the Bahrain Labour Law. The Company accrues for its liability in this respect on an annual basis.

3.8.2. Other employee benefits

Other employee benefits and entitlements are recognised as they accrue to the employees.

3.9. Government grants

Grants are recognised when the conditions for receipt are met and there is reasonable assurance that the grant will be received. Grants related to assets are initially taken to deferred income and then released to profit or loss on a systematic and rational basis over the useful lives of the related assets. Grants related to income and grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in profit or loss in the period in which they become receivable.

3.10. Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

3.11. Contract liabilities

Contract liabilities represent the Company's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the Company recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the Company has transferred the goods or services to the customer.

3.12. Value-Added Tax ('VAT')

Revenues, expenses and assets are recognised net of the amount of associated VAT, unless the VAT incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense. Receivables and payables are stated inclusive of the amount of VAT receivable or payable. The net amount of VAT recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of VAT recoverable from, or payable to, the tax authority.

3.13. Related party transactions

Related parties comprise the shareholder, directors and such other entities over which the Company or its shareholder can exercise significant influence or can be significantly influenced by those entities. The Company enters into transactions with related parties on normal commercial terms and conditions.

3.14. Revenue recognition

The Company recognises revenue as follows:

3.14.1. Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the Company is expected to be entitled in exchange for transferring services to a customer. For each contract with a customer, the Company: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the services promised.

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are recognised as a refund liability.

3.14.2. Rendering of services

Revenue from a contract to provide services is recognised over time as the services are rendered based on either a fixed price or an hourly rate.

3.14.3. Other income

Other income is recognised on an accrual basis or when the Company's right to receive payment is established.

3.15. Foreign currency

Foreign currency transactions are translated into International and currency units using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

3.16. Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

3.17. Offsetting

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position, if the Company has a legally enforceable right to set off the recognised amounts and The Company intends to settle either on a net basis or realise the asset and settle the liability simultaneously.

4. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

4.1. Estimation of useful lives of assets

The Company determines the estimated useful lives and related depreciation and amortisation charges for its plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

4.2. Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience, historical collection rates.

4.3. Impairment of non-financial assets

The company assesses impairment of non-financial assets at each reporting date by evaluating conditions specific to the company and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

4.4. Lease term

The lease term is a significant component in the measurement of both the right-of-use asset and lease liability. Judgement is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised, or an option to terminate the lease will not be exercised, when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option, or not to exercise a termination option, are considered at the lease commencement date. Factors considered may include the importance of the asset to the Company's operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; existence of significant leasehold improvements; and the costs and disruption to replace the asset. The Company reassesses whether it is reasonably certain to exercise an extension option, or not exercise a termination option, if there is a significant event or significant change in circumstances.

4.5. Incremental borrowing rate

Where the interest rate implicit in a lease cannot be readily determined, an incremental borrowing rate is estimated to discount future lease payments to measure the present value of the lease liability at the lease commencement date. Such a rate is based on what the Company estimates it would have to pay a third party to borrow the funds necessary to obtain an asset of a similar value to the right-of-use asset, with similar terms, security and economic environment.

4.6. Provisions

Provisions are recognised when the Company has a present (legal or constructive) obligation as a result of a past event, it is probable the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

4.7. Contingencies

Contingent liabilities are not recognised in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is not recognised in the financial statements but disclosed when an inflow of economic benefits is probable.

5. Plant and equipment

	Computer and office equipments	Motor vehicles	Total
Cost :			
At 1 April 2021	4787	6,000	10,787
Additions	3,304	-	3,304
At 31 March 2022	8091	6000	14,091
Additions	504	-	504
Disposals	-	(6,000)	(6,000)
Written off	(1,325)	-	(1,325)
At 31 March 2023	7,270	-	7,270
Accumulated depreciation :			
At 1 April 2021	3,868	6,000	9,868
Depreciation for the year	703	-	703
At 31 March 2022	4,571	6,000	10,571
Depreciation for the year	1,579	-	1,579
Disposals	-	(6,000)	(6,000)
Written off	(1,325)	-	(1,325)
At 31 March 2023	4,825	-	4,825
Carrying amount :			
At 31 March 2022	3,520	-	3,520
At 31 March 2023	2,445	-	2,445

Fully depreciated plant and equipment still in use had a cost of BD 3,348 (2021: BD 9,477).

6. Right-of-use assets

	Office premises
Cost :	
At 1 April 2021	20,159
At 31 March 2022	20,159
Termination	(20,159)
At 31 March 2023	-
Accumulated depreciation :	
At 1 April 2021	11,474
Depreciation for the year	5,737

Repair and maintenance		-	231
Miscellaneous		3,691	2,987
		<u>72,039</u>	<u>74,207</u>

20.1. Employee costs

	2023	2022
Salary and allowances	507,337	354,445
Social and medical insurance	45,047	31,528
Employee benefits	21,418	15,561
Incentives	11,327	10,252
Visa and immigration fee	9,024	9,785
Employee welfare	408	225
	<u>594,561</u>	<u>421,796</u>

The employee costs have been allocated in the statement of profit or loss and other comprehensive income as follows:

	Note	2023	2022
Direct costs	18	547,321	367,917
General and administrative expenses	20	47,240	53,879
		<u>594,561</u>	<u>421,796</u>

20.2. The Company leases office building is not exceeding 12 months. This lease is short-term, hence the rent have been expensed as incurred and not capitalised as right-of-use asset.

21. Related party transactions**21.1. Parent and ultimate controlling party**

The Company is controlled by Mindteck India Limited incorporated in India, which is the intermediate parent company, and holds 100% of its ordinary share capital. Mindteck India Limited in turn is controlled by Trans Company Limited incorporated in the British Virgin Islands which is the ultimate controlling party.

21.2. Transactions with parent company

	2023	2022
Purchase of IT services	41,650	88,871
Purchase of computer and equipment	594	-

21.3. Other related parties

	2023	2022
Purchase of IT services	6,901	16,211
Repayment of advances	-	60,442

The above transactions were made on the same terms as equivalent transactions with unrelated parties.

22. Contingencies and commitments**22.1. Contingencies**

The Company issued undated cheques to Medgulf Takaful of BD 1,000 against performance bonds obtained in the ordinary course of business.

22.2. Commitments

There were no material commitments known as at the date of the statement of financial position.

23. Financial instruments

Financial instruments include financial assets and liabilities carried on the statement of financial position. Financial assets include bank balances, deposits and trade and other receivables. Financial liabilities include trade and other payables, lease liability and due to related parties. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

The Company has exposure to the following risks from its use of financial instruments:

23.1. Credit risk

Credit risk is the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. All financial assets are subject to credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The carrying amounts as reported in the statement of financial position:

	Maximum exposure	
	2023	2022
Bank balance	70,927	10,594
Tender deposits	522	500
Trade and other receivables	150,455	106,352
	<u>221,904</u>	<u>117,446</u>

The Company has adopted a lifetime expected loss allowance in estimating expected credit losses to trade receivables through the use of a provisions matrix using fixed rates of credit loss provisioning. These provisions are considered representative across all customers of the Company based on recent sales experience, historical collection rates and forward-looking information that is available.

23.2. Foreign exchange risk

Foreign exchange risk is the risk that the fair value of future cash flows of financial instrument will fluctuate because of changes in foreign exchange rates. The Company takes on exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. The Company mainly deals in Bahraini Dinar and other GCC currencies that are pegged to United States Dollar, hence not exposed to foreign exchange risk.

23.3. Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. Liquidity risk may result from an inability to sell a financial asset at close to its fair value. The Company's liquidity management process includes: working capital funding, managed by monitoring future cash flows to ensure that requirements can be met and monitoring liquidity ratios against internal and regulatory requirements.

The maturity analysis of financial assets and liabilities at 31 December is as follows:

	2023		2022	
	Less than 6 months	Total	Less than 6 months	Total
Assets				
Bank balances	70,927	70,927	10,594	10,594
Tender deposits	522	522	500	500
Trade and other receivables	150,455	150,455	106,352	106,352
	<u>221,904</u>	<u>221,904</u>	<u>117,446</u>	<u>117,446</u>
Liabilities				
Trade and other payables	75,428	75,428	1,481	1,481
Due to related parties	5,848	5,848	30,385	30,385
	<u>81,276</u>	<u>81,276</u>	<u>31,866</u>	<u>31,866</u>

24. Fair value measurement

The carrying amounts of trade and other receivables and trade and other payables are assumed to approximate their fair values due to their short-term nature. The fair value of financial liabilities is estimated by discounting the remaining contractual maturities at the current market interest rate that is available for similar financial liabilities.

25. Comparative figures

Comparatives figures have been regrouped or reclassified where necessary for the purpose of comparison. Such reclassifications do not affect previously reported profit or liquidity.

26. Events after the reporting period

No matter or circumstance has arisen since 31 March 2023 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.
