

BOND BOOST

FPIs turn net buyers of bonds in March expecting dovish RBI policy

SHASHANK NAYAR
Mumbai, April 2

FOREIGN INVESTORS (FPIs) turned net buyers of Indian bonds in March, probably anticipating a more dovish central bank policy accompanied by a rate cut. The bond markets are expecting added liquidity to be infused by the Reserve Bank of India (RBI) through forex swaps. FPIs have bought close to \$3 billion worth of bonds from the Indian bond markets in March — the highest in a month since October 2017. Dealers believe the rise in foreign fund flows in the debt market can be attributed to an expectation of further rate cuts by RBI on account of easing inflation numbers, easing FPI norms through the voluntary retention route

In numbers			
(\$ m)	Equity	Debt	Net FPI flows
2017	8,000	23,000	31,000
2018	-4,015.15	-5,974.92	-9,990.07
2019			
Jan	101.65	-369.85	-268.2
Feb	2,152.82	-1,300.99	851.83
Mar	6,148.74	2,936.62	9,085.36

(VRR),introduced in March, and the dollar swaps. “Attractive spreads in short-term corporate bonds and added liquidity infused within the system through the RBI swap window have led foreign investors to look at India as an attractive investment,” said Devang Shah,deputy head,fixed income,Axis Mutual Fund. The (VRR) scheme to boost foreign investment in the

Indian debt markets by the central bank was finalised on March 1,making investments through the route free of regulatory norms applicable to FPI investments in debt markets, provided investors maintain a minimum share of their investments for a fixed period. “Global bond yields are going down while emerging markets (EM) currencies have been performing well, leading to inflows in EM markets,”said Dhawal Dalal, CIO, fixed-income, Edelweiss Asset Management, adding: “VRR so far has collected ₹11,000 crore of the corporate bond limit.” The RBI on February 8 relaxed rules for FPI holding of corporate bonds by withdrawing its April 2018 regulation wherein no FPI was allowed an exposure of more than 20% of

its corporate bond portfolio to a single corporate. The benchmark 10-year yield — 7.17% yielding paper maturing in 2028 — fell 7 basis points (bps) in March, to close at 7.48% at the end of March. The rupee appreciated by 2.3% to close at ₹69.16 on March 29. The quota for FPI investment in gilts is ₹2.34 lakh crore as on 2 April, 2019, according to CCIL data; the utilisation as on April 2, was 65.63% for gilts. The NSDL data shows that as of April 1, the limit for FPI investment in corporate bonds is ₹3.03 lakh crore. The utilised level is 72.39%. FPIs invest in various debt market instruments such as government bonds (G-secs), state development loans and corporate bonds, but with prescribed limits and restrictions by the central bank.

Stock exchange debut: Govt shortlisting profit-making subsidiaries of CPSEs

PRESS TRUST OF INDIA
New Delhi, April 2

THE FINANCE MINISTRY is in the process of shortlisting profit-making subsidiaries of CPSEs having a minimum stipulated net worth, which can be listed on the stock exchanges, an official said. Currently, profit-making CPSEs with a minimum net-worth of ₹500 crore are listed on the exchanges. The Department of Investment and Public Asset Management (DIPAM) will be consulting administrative ministries and central public sector enterprises (CPSEs) before finalising the names of the subsidiaries for the stock exchange debut. “We are drafting a list of subsidiaries of CPSEs which can go in for listing through initial public offer. The net-worth threshold for such listing too would be decided after deliberation,”an official said.

In 2017-18, there were 257 operational CPSEs, of which 184 were profit-making. Most of the profit-making subsidiaries of CPSEs are in coal, power and oil and gas sector. The official said CPSE arms having a track record of making

profit for at least three years are likely to be picked up for listing. DIPAM, the official said, is preparing the pipeline of state-owned firms which can be listed on the exchanges in the current fiscal or subsequent fiscals. The pipeline is necessary as the gov-

ernment holding in most of the bluechip CPSEs is close to 51%. Though the listing of CPSE subsidiaries will not fetch the government any money directly, it would get money in the form of dividend from the parent company.

WFE, Oliver Wyman launch report on clearing & settlement

BHARADWAJ SHARMA
Mumbai, April 2

THE WORLD FEDERATION of Exchanges (WFE) and the central counterparties (CCPs) on Tuesday published a joint report with Oliver Wyman, a New York-headquartered management consulting firm with focus on banking and financial services. The report has focused on post-crises developments that have shaped the current clearing landscape in addition to forward-looking recommendations on how to build the CCP of the future. The National Stock Exchange (NSE) also announced that it is hosting the World Fed-

eration of Exchanges’ (WFE) 36th Clearing & Derivatives Conference 2019 from Tuesday till Thursday. WFE CEO Nandini Sukumar told reporters that it would be an opportunity for participants to engage in a debate about the future of clearing, derivatives markets and financial market infrastructure. With regard to derivatives trading in India, NSE MD & CEO Vikram Limaye said India’s volume in derivatives market is higher than any other markets as India’s trade are exchange driven in contrast to OTC-based trading in other markets. However, he clarified that majority of investors in retail category are

NSE MD & CEO Vikram Limaye said India’s volume in derivatives market is higher than any other markets as India’s trade are exchange driven in contrast to OTC-based trading in other markets

accredited investors who either HNIs or professional traders. “Gross margining is on real-time basis. The kind of system is very different from the way margining is done in any other parts of the world where it is done twice a day, at EOD and various other types of

models,” Limaye added. The future of clearing report looks at the relevant policy and regulatory frameworks that were introduced with a specific focus on the reforms aimed at encouraging greater use of central clearing, and the impacts of these on CCPs, and other market participants. One of its future focus areas include rolling out the next wave of risk management innovation. Those risks could be operational risk, credit liquidity or market risks. Other initiatives by WFE could include offering trade data services, bilateral OTC solutions and technological solutions or apps to investors. “Significant progress has

been made across the industry in implementing various post-crisis reforms. However, in certain areas these reforms have not been fully or consistently implemented. As we look ahead, supervisors need to focus on ensuring continued implementation of agreed principles for the clearing ecosystem and avoiding unnecessary market fragmentation. “In addition, the industry must plan for other challenges including the next regulatory wave, an evolving risk environment, technology advancements and market structure evolution,” said Daniela Peterhoff, global head of market infrastructure at Oliver Wyman.

Average AUM of fund houses grew 6.6% in Q4

FE BUREAU
Mumbai, April 2

THE AVERAGE ASSETS under management (AAUM) of 35 fund houses surged by 6.60% during the January-March quarter of FY18-19 compared with the corresponding quarter a year ago. Of the top five fund houses, Aditya Birla Sun Life Mutual Fund and Reliance Mutual Fund saw negative growth in their AAUM, while HDFC Mutual Fund, high-end AAUM grew by around 14%. The data from Association of Mutual Funds in India (Amfi) show AAUM of fund houses stood at ₹24 lakh crore for the January-March quarter against ₹22.51 lakh crore in the January-March 2018. Of the 35 fund houses, 19 have seen a dip in their AAUM for the January-March 2019 quarter compared with previous financial year. Among the top players, SBI Mutual Fund and Kotak Mahindra Mutual Fund saw their AAUM grow by over 30% and 20.3%, respectively, in the last quarter of the last financial year. Despite positive growth in the last quarter, participants in the MF industry say in the last few months equity funds have seen a slowdown in inflows. The average monthly inflows into equity schemes in April-February slowed to ₹9,110 crore from ₹14,200 crore in 2017-18. Inflows into equity MFs (which include equity, ELSS and arbitrage funds) in February were subdued at ₹4,640 crore, the second smallest in 2018-19. In December 2018, equity funds had attracted only ₹4,442 crore, the smallest sum in 27 months. Even as equity markets have touched a new high, the rally has been driven by only a few stocks. Data from Value Research show that category average returns of small-cap funds stood at -7.15% and for mid-cap category it was at around -1% in the last one year. “Inflows have slowed down in the past few months and lump-sum investments have stopped to a large extent. The only positive thing is that, systematic investment

Polycab looks to raise up to ₹400 cr via IPO

FE BUREAU
Mumbai, April 2

POLYCAB INDIA, manufacturer of wires and cables and fast-moving electrical goods, has proposed to open its initial public offering (IPO) on April 5. The company plans to raise up to ₹400 crore from the IPO, which will close on April 9. The price band has been set in the range of ₹533-538 per equity share. Bids can be made for a minimum lot of 27 equity shares and in multiples of 27 equity shares thereafter. The IPO consists of a fresh issue of equity shares aggregating up to ₹400 crore by the company and an offer for sale

up to 1.75 crore equity shares of face value of ₹10 each. International Finance Corporation (IFC), a member of the World Bank Group, will sell 5% of its 15% stake in this IPO. Selling shareholders include investor selling shareholders, promoter selling shareholders, the promoter group selling shareholders and the individual selling shareholders. The offer includes a reservation of up to 1.75 lakh equity shares for eligible employees (which shall not exceed 5% of the post-offer equity share capital of the company). A discount of ₹53 per equity share is being offered to eligible employees bidding in the

employee reservation portion. The equity shares are proposed to be listed on both BSE and NSE. The net proceeds from the fresh issue are proposed to be utilised for repayment of all or a portion of certain borrowings availed by the company, fund incremental working capital requirements and for general corporate purposes. The global coordinators and book running lead managers to the offer are Kotak Mahindra Capital, Axis Capital, Citigroup Global Markets India and Edelweiss Financial Services. The book running lead managers to the offer are IIFL Holdings and Yes Securities.
